Class Description: Our TFAI musical theater class offers an exciting, supportive space for students from grades 3rd-12th to explore the world of musical performance. Tailored to develop each student's skills in acting, dancing and singing, this class provides a full-spectrum experience in musical theater. Students will learn acting skills, choreography and vocal techniques all while working collaboratively to create scenes and perform songs from popular musicals.

Through exercises, games and practice, students gain confidence, improve stage presence and learn the importance of teamwork. The class also includes activities to help students understand storytelling, character development and expression. We will also hold an audition day for the students to see how the process works and to get cast placement for our end of year performance.

Whether your child is a beginner or has experience in musical theater, this class offers something for everyone. At the end of the course, students will have an opportunity to showcase their progress in a group performance, celebrating their hard work and creativity.

PLEASE NOTE: This class will have mandatory rehearsals outside of class time and a tech week before performances. Please make sure to look at the class schedule and make sure your student(s) can attend the extra rehearsals before you register.
